

I am concerned that the FCC is considering overturning NJ's Do Not Call Program. Yes, it is much stronger and stricter than the federal program, however, as you can see from the participation in the program by the millions of residents in NJ that this is what we want. We do not want our privacy and our homes invaded by telemarketers at all hours of the day. As it stands today, family values are eroding away as fewer and fewer families have the time to spend together. Telemarketers eat away at the time families have together at meals, spending time together, etc.

Do not take away our right to not be harrassed by telemarketers. If I want to use a business, I will do so on my own - don't involve telemarketers in my life.
